

Service Users and Carers

One of the main objectives of the Social Care Workforce Development Programme (SCWDP) is to increase the proportion of staff across the whole social care sector with the qualifications, skills and knowledge they need for the work they do.

The SCWDP training programme is therefore available to service users and carers within Denbighshire where shown as a target group against the Course Title. The training calendar can be viewed on our website at:-

www.denbighshire.gov.uk/workforcedevelopment

The calendar also gives full details on how to book onto training courses.

If you are a service user or carer interested in participating in the planning of training events please contact the First Contact Team and ask to speak to the Social Care Workforce Development Partnership Co-ordinator.
