### Wales Voluntary Services Recovery Fund

As the Welsh Government eases lockdown restrictions and people in Wales move forward, the funding needs to respond to new challenges. Although the social restrictions are easing, many people are still in emergency situations that need urgent support.

The Voluntary Services Recovery Fund (VSRF) will focus on reducing inequalities across society as a result of the Covid-19 pandemic. Many communities have suffered disproportionately, so actions need to take place to ensure a fair and just recovery. The funding will also provide the resources for the voluntary sector to embed safe practices to carry on delivering essential services across Wales.

This fund is primarily focused on revenue funding, however, your funding request can contain costs for purchases of smaller ‘capital’ equipment including consumables (for example PPE, screens etc).

- Funding a fair and just recovery for people in Wales
- Work towards reducing inequalities exacerbated by the Covid-19 pandemic and prevent emerging inequalities from becoming entrenched in communities
- To fund adaptations to ensure continued provision of essential services for the most vulnerable affected by the Covid-19 pandemic, in line with government requirements

£10,000 - £100,000 with some flexibility

### Wales Respond and Recover Fund

As lockdown is eased, we recognise that for many organisations funding requirements have changed. Whilst we understand that emergency funding will continue to be required for some months to come the need to move on to find ‘a new normal’ has increased. Groups need to address the challenges of recovering in terms of ensuring they can support their beneficiaries in the right way as well as their trustees, staff teams and volunteers who will all need additional support.

This new fund will therefore cover both elements:

- **RESPOND** – Funding will continue to be available for organisations delivering emergency support to those affected by the Coronavirus pandemic
- **RECOVER** – Funding will be focused on recovering from the immediate crisis to develop self-sufficiency and resilience, focussing on solutions rather than on symptoms. Work supported must be aimed at strengthening communities and/or strengthening the organisations that provide vital support to communities.

Project costs and running costs for organisations will be supported, including staff costs, volunteer expenses and transport costs. Small capital costs are also eligible, providing the capital items are directly linked to supporting the above groups.

- Grants of up to £5,000 are available for applications addressing projects under RESPOND
- Grants of up to £20,000 are available for applications addressing projects under RECOVER

Applications are invited from anyone who falls within this category, providing they satisfy further residential requirements and other criteria stipulated by the Trustees and may be eligible for assistance in the form of cash payments, grants or other financial assistance. All awards are made at the absolute discretion of the Trustees whose decision is final. #### Survive:
This strand is designed to support those voluntary sector organisations that need financial support to survive the current crisis primarily because of an unprecedented fall in their fundraising and donation income.

#### Improve:
This strand is aimed at organisations looking to improve the way they undertake certain existing functions.

#### Diversify:

We also know in this situation it is important to provide support in the medium and long term. We will achieve this through a phased funding approach; working with partners to provide a networked emergency response across the country, as well as offering support to new charities responding to the medium and longer-term impact of the crisis through an open funding call this summer. As well as working with existing funded partners as they develop their Covid-19 response, we are working with some larger national partners who have thematic expertise and national reach and are working collaboratively to distribute funding to local community and grassroots groups across the UK at the forefront of this crisis.</td>
